

Transparency in Health Care Prices Act

Senate Bill 17-065

Effective January 1, 2018

If you have health insurance coverage, you are strongly encouraged to consult with your health insurer to determine accurate information about your financial responsibility for a particular health care service provided by a health care provider at this office. If you do not have health insurance coverage, you are strongly encouraged to contact our business office personnel at (720) 979-0010 to discuss payment options and/or financial resources prior to receiving a health care service from a health care provider at this office since posted health care prices may not reflect the actual amount of your financial responsibility. Actual services provided during a surgical procedure may vary from the scheduled procedure and price quote, including but not limited to the medically necessary use of high cost drugs, implants, supplies and any procedures other than the original quote based on individual circumstances for each patient case.

The following is a list of the most commonly provided services at the Park Ridge Surgery Center.
